Rating: 😊 very good

Category: Body Care -> Body Cream/Oil

A high quality, natural organic oil for the performance of quality cosmeti procedures, and which looks after your skin’s beauty and health.

Sweet almond oil moisturises, nourishes and rejuvenates skin, making it velvety. The ingredients of almond oil are comprised of polyunsaturated fatty acids, oleic acid (Omega 9) and linoleic acid (Omega 6) which are integral to the body’s metabolic processes and required for its normal functioning. Almond oil is rich with vitamin E, which is a powerful antioxidant, as well as containing other biologically active substances – vitamins, minerals and a lot of phytosterols. Almond oil helps to preserve the youth and vitality of skin.
